KLEIN®

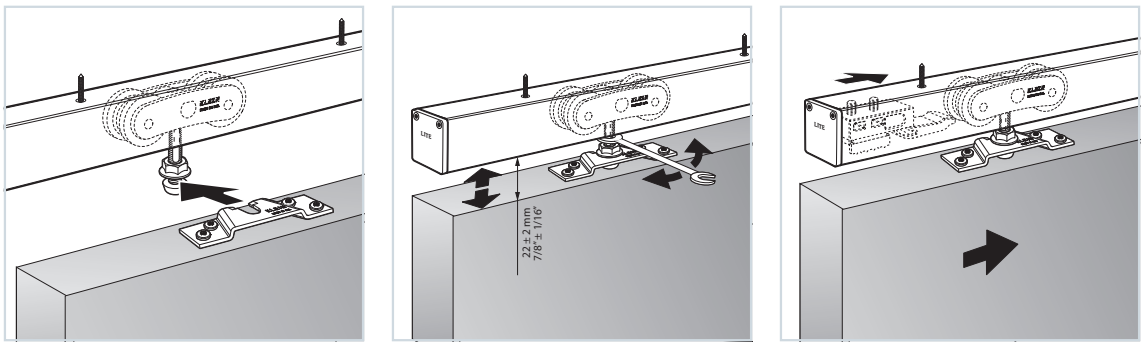
**ESP**

**LITE** está diseñado para dividir ambientes mediante paneles correderos de madera generando una luz de paso óptima para cualquier obra asociando calidad, diseño y facilidad de instalación.

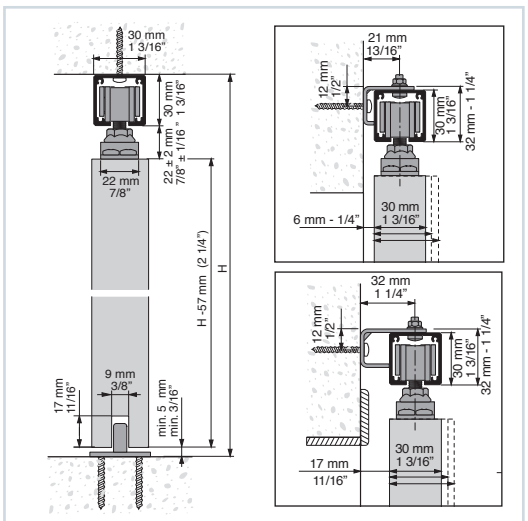
- Versatilidad de aplicaciones con integración máxima *(instalación empotrada con/sin falso techo o a pared).*
- Rodamientos de bolas “Full Ball Bearing” made in Klein *(sistema testado más de 100.000 ciclos según norma EN1527).*
- Perfil de aluminio anodizado “Silver” *(AA10 ISO 7599, 10 micras).*
- Regulación en altura para puertas hasta 100 kg.

# LITE SUPERIOR

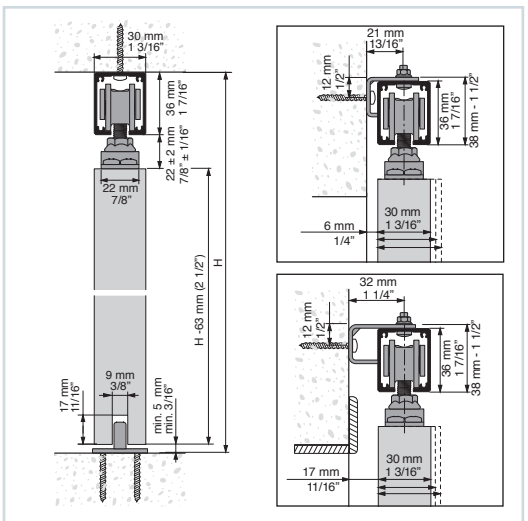
## Lite Superior



## LITE 60



## LITE 100



ENG

**LITE** is designed to divide space through sliding wooden panels optimizing clearance. This system provides not only a minimalist design but also an easiness of installation for residential or hospitality projects.

- Numerous applications available with maximum integration *(recessed or surfaced mounted installation).*
- "Full Ball Bearing" made in Klein *(system tested over 100.000 cycles as per EN1527 standard).*
- "Silver" anodized aluminium profile *(AA10 ISO 7599, 10 microns).*
- Height's regulation for doors up to 100 kg.

# LITE RETRAC

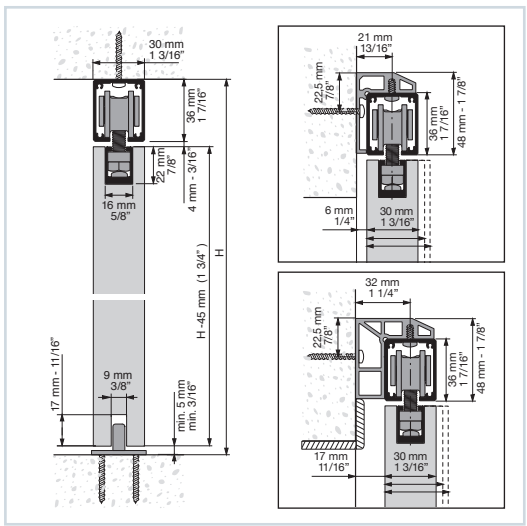
## LITE 100



FRA

**LITE** a été conçu pour diviser des espaces avec un ou plusieurs vantaux en bois coulissants. Il permet une ouverture de passage optimale, un design minimaliste ainsi qu'une installation facile.

- Multitudes d'applications disponibles pour une intégration maximale *(installation encastrée avec/sans faux plafond ou en applique).*
- Roulement "Full Ball Bearing" made in Klein *(Système testé à plus de 100.000 cycles selon la norme EN1527).*
- Rail en aluminium anodisé "Silver" *(AA10 ISO 7599, 10 microns).*
- Régulation en hauteur pour portes pesant jusqu'à 100 kilos.
